**NO HORMONES?  
ZERO. ZILCH. NADA. NONE.**

## What is Phexx<sup>®</sup>?

Phexx is an FDA-approved, hormone-free, prescription, vaginal birth control gel that you control.

Phexx comes in a **4-inch applicator** that you use similarly to a tampon

1 prescription includes **12 individually wrapped, single-dose applicators**

**Phexx is used right before sex**, or up to 1 hour before sex, and is effective immediately

**An additional dose of Phexx** must be used before each act of sex

**Phexx is easily reversible**, because you might want a baby someday, just not now.

# Phexx® puts you in control

## Phexx is quick and easy to use.

Inserting the Phexx applicator is similar to inserting a tampon.

## When to use Phexx is simple to remember:

**1** DOSE / **1** HOUR / **1** ACT

### INDICATION

Phexx is an on-demand method of birth control used to prevent pregnancy. Phexx is not effective when used after sex.

### IMPORTANT SAFETY INFORMATION

Rare cases(0.36%) of bladder and kidney infection have been reported. If you have a history of urinary tract problems that keep coming back, you should not use Phexx.

**Please see full Product Information for Phexx.**

# How does Phexx® work?

Vaginas have pH levels that can range from 3.5-4.5

When semen (sperm) enters the vagina, it raises the vagina's pH level, which allows sperm to be mobile and swim up the reproductive canal.

**Phexx works to keep vaginal pH in the range of 3.5-4.5, which lowers sperm mobility, lowering the chance of sperm reaching the egg.**

Phexx is designed to stay in place during intercourse.

## IMPORTANT SAFETY INFORMATION (CONT'D.)

Contact your healthcare provider if you are experiencing genitourinary side effects such as vaginal burning, itching, discharge, genital discomfort (including in male partners), yeast infection, urinary tract infection or bacterial vaginosis.

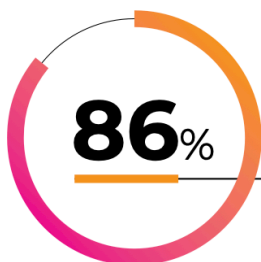

Phexx does not protect against any sexually transmitted infections, including HIV. Avoid using with a vaginal ring.

**Please see full Product Information for Phexx.**

# PROVEN EFFECTIVE IN PREGNANCY PREVENTION<sup>a</sup>

## WITH TYPICAL USE

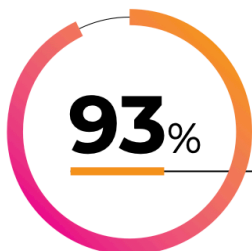

Kaplan-Meier/time-to-event efficacy analysis  
over 7 cycles of use (**primary endpoint**)

**EFFICACY RATE**  
7-cycle cumulative  
pregnancy risk of 13.7%<sup>b</sup>

## WHEN USED AS DIRECTED

Kaplan-Meier/time-to-event efficacy analysis  
over 7 cycles of use

**EFFICACY RATE**  
7-cycle cumulative  
pregnancy risk of 6.7%<sup>b,c</sup>

<sup>a</sup>Multicenter, single-arm, open-label trial (N=1384).

<sup>b</sup>The effectiveness rates described above should not be compared to other contraceptive methods with different trial designs and study duration beyond 7 cycles.

<sup>c</sup>Secondary analysis.

## IMPORTANT SAFETY INFORMATION (CONT'D.)

Avoid Phexx if you or your sexual partner is allergic to lactic acid, citric acid, potassium bitartrate, or any of the ingredients in Phexx. Stop using Phexx if you develop an allergic reaction..
